CAREER OBJECTIVE

Motivated and detail-oriented Full-Stack Developer, currently gaining hands-on experience through practical projects using MERN Stack and Flutter. Actively seeking an entry-level position or internship where I can apply my skills in full-stack and mobile development, contribute to user-friendly solutions, and continue learning in a fast-paced, tech-driven environment. Passionate about clean code, intuitive UI/UX, and staying ahead of trends in web technologies and AI.

EDUCATION

BS(Hons) in Computer Science
Government College University, Lahore.
2022 - 2026

SKILLS

- **Languages:** JavaScript | TypeScript | Java | C++ | Python
- **Frontend:** React.js | HTML5 | CSS3 | Bootstrap | Tailwind CSS | Sass
- **UI/Design Tools:** Figma | Penpot
- **Mobile Dev:** Flutter
- **Backend:** Node.js | Express.js | RESTful APIs
- **Databases:** MongoDB | SQL
- **Tools & Platforms:** Git & GitHub | VS Code | Linux

PROJECTS

Portfolio Website
Tech Stack: HTML, CSS, JavaScript, Firebase, GitHub
- Designed and deployed a responsive portfolio with smooth scrolling and interactive project cards.
- Showcases projects and skills; regularly updated and hosted on GitHub Pages.

SkyCast Weather App
Tech Stack: HTML, CSS, JavaScript, OpenWeatherMap API
- Built a responsive weather app displaying real-time data using OpenWeatherMap API.
- Implemented dynamic UI for temperature, conditions, humidity, and wind speed with search functionality.

Expense Tracker
Tech Stack: React.js, JavaScript, Bootstrap
- Built a full-featured expense tracking app with CRUD functionality and category-wise summaries.
- Visualized financial data using dynamic charts and graphs.

YumQuest Recipe Finder
Tech Stack: HTML, CSS, JavaScript, TheMealDB API
- Built a responsive recipe search app that fetches meal data using TheMealDB API.
- Implemented keyword-based search, recipe detail view, and a clean, mobile-friendly UI.

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern
Fluxxion | June 2025 - Present
- Built responsive and dynamic UIs using React.js, HTML5, CSS3, and Tailwind CSS, enhancing user experience across devices.
- Developed scalable and modular backend services using Node.js and Next.js, ensuring efficient data flow and performance.

Web Developer Intern
AICP | Mar 2024 - June 2024
- Developed and deployed multiple responsive web applications, including a To-Do Task Manager, Application Form System, Business Information Portal, Library Management System, Food Delivery Platform, and Job Posting Website.
- Engineered dynamic and interactive user interfaces using HTML, CSS (Bootstrap), and JavaScript, ensuring mobile responsiveness and cross-browser compatibility.
